

# Message from Our Lady of Chartres

Friday, June 15<sup>th</sup> 2018, it was a beautiful, sunny morning and I went to Chartres Cathedral. Early in the morning, as soon as it was opened, I entered it with great respect, joy and enthusiasm.

I could sit there for hours, from morning to evening, because the energy in this cathedral was completely magical and soothing to me.

I stopped in front of the statue of Virgin Mary and wrote my request on a piece of paper.

I asked Virgin Mary to help me accept what I could not change, to change what I could change and begged her to bless me with Wisdom so that I could distinguish from one another.

I threw the piece of paper into a large transparent container and heard someone say to me:

„Sit down and write,, So I sat down in one of the benches in front of the statue of Virgin Mary and began to write words that came to me as thoughts.

**You can only change yourself.**

**It is important to accept others in Love as they are.**

**That acceptance with Love is an expression of unconditional Love.**

**It is the Love that you give as a mother to all your children.**

**Just as a mother accepts her child with Love, thus you need to learn to accept all others with Love.**

**And the Knowledge is that you can change only yourself, your attitude, your point of view, your acceptance of situations in your life, your acceptance of all others without conditions.**

**This means realising your Responsibility and at the same time leaving the Responsibility of others to bear it themselves and not to take it on behalf of others.**

**And it is also an expression of deep compassion for all other beings that they can accept their own Responsibility and make the change in themselves and in their lives.**

**And you should know that this evolution and this path of mankind towards taking own Responsibility is very long and slow. At some point on this road, every human being will be awakened and will accept own Responsibility.**

**You have only now begun to follow this path and see for yourself how much Responsibility you bear on your shoulders for others.**

**And it is necessary that you return all the Responsibility to others and stop carrying it for the others so that they themselves can come to the same knowledge as you have.**

**Mother's love is about unconditional acceptance, but her other side or face is addiction.**

**If unconditional acceptance turns into addiction, you accept and bear responsibility for others on your shoulders, and thus you do not allow them to grow and make their own experience in their integrity. Thus you do not allow that the Responsibility becomes a part of them, so they can see, realize and feel the consequences of their decisions.**

**Until they do not understand and learn from the consequences of their actions and decisions, they do not accept Responsibility for their lives and thus**

**the situation will repeat over and over in their many lives until they will accept the Responsibility finally.**

Or, on the contrary, in these lives, you bear not only your own responsibility but also responsibility for others.

And then you do not see, feel, perceive and accept lessons from the life you live and have lived.

This cathedral is built in such a way that it holds inside the Responsibility for the Knowledge and Understanding that its builders have received and had.

They found the COURAGE in themselves and accepted the Responsibility for how the Knowledge that was part of them would be given to the world.

Over the centuries of construction of this cathedral, the builders have transferred and passed their Knowledge into the walls, into every stone from which it is built, into stained glass, into statues and into paintings.

**The cathedral expresses the role and mission of a woman in the life of every human being.**

**The cathedral expresses the balance of life.**

**The cathedral also expresses a balance between man and woman and therefore its energy is different.**

**The cathedral expresses equivalence between man and woman.**

**It is an expression of Love between man and woman.**

**It is an expression of the teaching of sacred love between man and woman on Mother Earth.**

**There is no superiority of man over woman.**

This cathedral was built based on this Knowledge and with Love and deep respect for this teaching. Builders incorporated this deep respect directly in the cathedral. That's why it is said, "Art will save the world."

The secrets that the builders knew are part of you, stored in your cells and in your DNA, because it is YOU yourself who have shared these secrets in the infinite circle of life in which you are born to Mother Earth.

**You have all the knowledge of the Universe written in you, and it is only up to you, in which life you will let it in and what you allow to become your conscious part.**

**You have everything inside you because you are the alpha and omega of life.**

**You are an infinite circle that does not start and end anywhere, and its expression is a spiral, because your development can be directed forward or backwards, depending on how you accept the responsibility for yourself, for your life.**

**When Responsibility is part of you, your development is moving forward.**

**When you give up your Responsibility or pass it on to others, your development is going backwards because you and your Responsibility have lost your FREEDOM.**

**And FREEDOM is your essence, and then long time must pass before you take back your FREEDOM and accept your Responsibility.**

**Being free and not accepting Responsibility for your thoughts, words, decisions and actions is just the illusion of FREEDOM you live.**
