

POWERLESSNESS – Part 1.

All around me is just DARKNESS. It's dark, the deepest darkness, no stars, no moon.

I see a small light in front of me. I stand in the darkness and really want to reach the light I see before me. I walk towards the light, I almost run to the light, but I can't reach it.

It is a paradox because the faster I run and want to reach the light, the further it is away from me. And it comes back again, it is here - the feeling inside that whatever I do or do not do, still I can't catch the light no matter how quickly I run, the distance between me and the light remains the same. I really want to reach the light, it is not just a thought in my head anymore, my whole being longs for it, but I can't.

It's a terrible feeling and I would give anything to come to the light, but I can't. I see it in front of me. When I stand, do nothing at all and turn away from the light because I resigned that I could ever reach that light, it approached me within reach of my hand. However, when I stretch my hand out to touch it, the light went back as far as it was before.

The DARKNESS that is around me now, is POWERLESSNESS.

Just because of the fact that I can't change it, I can't reach the light, I feel POWERLESSNESS.

POWERLESSNESS is the moment when I RESIGNED.

Then the situation gets as if reversed. The light is at hand, but when I stretch my hand out so I can catch it, it goes back where it was and the darkness becomes denser then. The darkness thickens energetically in the sense that the more times the process repeats itself, the more dense and heavy the darkness gets. It is so intense that I can no longer stretch my hand out as if the darkness materialises and it will not allow me to move in it.

As long as I am only in those two positions that I am walking or doing nothing, the darkness is thin and I can move.

As soon as I get to the point that the darkness thickens, I can not move anymore and the light remains ahead of me, it's like a cruel mockery, because the light is ahead of me, but I don't have the strength to stretch my hand at all. It's a game of fear that it plays with us.

This is expressed in energy level as it is when HOPELESSNESS is created.

When the energy is so dense and hard that we are completely surrounded by darkness and we cannot reach out to touch the light and take it, we will die.

Then the Darkness will absorb all our HOPE and the Light will thicken.

HOPELESSNESS will take away our life.

(a beautiful energy came that entered all over me as if the heat would spilled in my body)

The LIGHT that was in front of you, that this fear pushes away from us, is the LIGHT OF FAITH and fear can manipulate with this light in this way.

The LIGHT that is in front of you is the LIGHT of Faith that I give to you on the palm of my hand.

Question: Should we go after the light, even though it is so far?

Answer: This is a false picture that fear presents to you that this Light is far away. In reality, it is near and right in front of you. Fear is not so powerful that it could carry away the Light so infinitely far. It only pushes it a tiny bit away from you so that you cannot touch it however it could continue to do it forever. And therefore if you have the strength to walk and the HOPE, the LIGHT will be still in front of you.

This is the manipulation of fear with your FAITH.

The LIGHT OF FAITH is in you, you are born with it, because FAITH, TRUST and HOPE are an integral part of Love.

If you lose any of them, you will gradually lose all of them.

Then I help you restore your FAITH and offer you the LIGHT OF FAITH in my palm. And I am close enough so you can receive it.

That LIGHT OF FAITH is within reach of your hand and that is the objective truth.

It is a false image of fear and a false illusion of fear that you do not have the Light at your fingertips. And that is why you cannot see the objective truth and instead of that, you accept this false game of fear as the reality of your life. This way you will not reach the Light of Faith. It is about what you accept as the reality of life, and if you accept a false image presented to you by fear, that will be your reality.

And it's about the FAITH of every single human being.

FAITH has unimaginably great healing power, because it can create an unimaginably large, powerful, enormous amount of energy.

It is FAITH that can heal you at all levels of your life and you human being as such.

If your FAITH were strong, firm and persistent, you would be able to heal all your body diseases only through your FAITH, you wouldn't need any chemically produced drugs, because I gave you all the necessary substances to support the healing and curing processes in your physical body.

Therefore, disease is fatal to human beings only when you lose your Faith.

Then the darkness of despair will empower you, and your powerlessness is the energy that then brings you the indispensable end from the perspective of the physical body that has resigned and thus death is coming.

Let me explain this on example of a disease on which many human beings have died in the past, that is leprosy.

And leprosy, like any other disease, is curable, but since in the past there has been a conviction in human society and its collective consciousness that this disease cannot be healed, you have condemned this person to death by denying help him, by excluding him from society and by denying him LOVE.

And I have already explained to you that Love, Faith, Trust and Hope are indivisible, integral and inseparable and if any of them is lost, they will all gradually disappear.

That is why human beings who have had leprosy in the past, and then they died, it was because of YOU - as individuals, but also YOU as a human society – have condemned them to death.

And it was precisely the fear that created this conviction in you.

And that is why fear has taken away the HOPE from you and made you think that this disease can not be cured and it was the hopelessness of every single human being who had got this disease that has brought him death.

And the fact that these human beings were unable to receive the Light of Faith in their hands and put it in their hearts, was because YOU as a human society had put in the human collective consciousness that this disease cannot be cured and it is fatal.

And so it was very easy to exploit this disease to eliminate all the people who became unwanted and unwelcome for anyone, anywhere. It was a way in which those unwanted people and all those who were in the way, were simply removed from your society.

And it has often happened that it got out of control of society and the disease spread like an epidemic, and many human beings died.
