

POWER OF FEAR – Part 3.

I started to feel very strange. It felt like as if I wasn't. I just wasn't. I do not know what it is. I haven't had that feeling yet. I realized I was under great protection, but it was a very strange feeling. As if I didn't have my body and I dissolve. As if I were just a short tube from which the voice comes out where the neck is. I could only feel the tube that was talking instead of me.

Question: What is it, what's going on and what do they want to show us?

Answer: It is a manifestation of fear. It's not YOU but it's fear. They showed us how our essence dissolves in fear, and then we act as fear wants. Although we say and speak, we are only a tool of fear - we are only a tube through which fear speaks. We only say what fear wants, because it has completely absorbed us, we have completely vanished. It's like a filter on which Love stays on top and on bottom is only what fear wants, but it's just the result of fear. It is not our essence, but the result of the manipulation of fear.

When we can open our hearts, our cells will be filled with Love. I flew out of this area. I could already fly to the stars, again I could fly from star to star. By opening my heart to Love, my cells filled with Love and I returned to Life. I left the space, I could go to a star and land on it.

The difference between that space and the star is that the star is moving, that the star has life, movement, laugh, joy, happiness, and because all this is there, there is also LIGHT. And this is Love in its pure joy - in motion, creating a counterpart to fear and thus creating LIGHT.

WHEREVER THERE IS LIGHT, THERE IS LOVE, LIFE, MOVEMENT, JOY, HAPPINESS AND LAUGHTER.

Where there is fear, there is only silence and darkness.

These are the opposites that have been opposed to each other since the beginning of creation.

They are important for you to be aware of yourself. They are important to be aware of the essence of Love and Life. If there would be no opposite, if there would be no silence and darkness, we wouldn't be able to realize and experience the essence of Love and Life. That opposite is here to realize it. However, it was not created to remain and to live in it. But the opposite, itself, wanted more, wanted to control Love and Live. The opposite wanted to control and rule everything that was created. It wanted to rule and control Life and Love.

I got very sick. I was sick all over my body and I wanted to vomit. Gradually I began to feel a strong pressure in my head. I felt very bad and I express myself with difficulties. I could feel the pressure on the face, up to the level of my nose.

Question: What does it mean, what's going on?

Answer: F-e-a-r do-esn't li-ke that we figu-red it out. F-e-a-r did not wa-nt to let people to k-now this. F-ear do-esn't li-ke, that G-od let it ha-ppen. F-ear do-esn't li-ke, that G-od has pa-ssed this k-know-led-ges to hu-man beings. It is its se-cret that sh-ould re-main hi-dden. It ve-ry much wea-kens its po-wer. F-ear is a-ngry that we we-re ab-le to un-der-stand it.

The pressure in my head was getting stronger and it was pressing hard on my face. I had the feeling that it would crush my head. I couldn't talk at all. I needed help.

Healing with the energy of Love has eliminated the power of fear, so after twenty minutes I was able to speak fluently again. Gradually the feeling of pressure in my head disappeared and I managed to move. Also, the pressure in the facial part of the head was relieved and the heat from the pain I felt, disappeared. Then I washed my face and hands with clean water from a healing spring.

Exactly like this, with the energy of Love the fear should be dissolved in Love.

Love healed me and I had infinite confidence in Love.

There was no resistance.

There was only LOVE and MUTUAL TRUST - INFINITE TRUST IN POWER OF LOVE.

Fear melted in Love, and then I cleaned everything with water.

So, to heal and dissolve fear, we also need the WATER to cleanse us.

Just as you did not realize the silence that is hidden on Mother Earth - the silence that is down, so the same silence is also up - in the Universe. In exactly the same way, there are beings unable to communicate with each other. You didn't realize that there was silence on Earth. We did not realize it because we perceive only how we communicate with each other, but we do not see that there is silence all around us. This is one of the things we have been shown in order to be able to notice other similarities that are very closely related.

To begin to understand that as it is up and so it is down, as its up and down as in large and small and both small and large.

Let us learn to perceive it in relation to ourselves, our human body. The processes that take place in our human bodies, in cells, also take place in the Universe.

We are a small reflection of the Universe.

We were so created.

It was our wish that we were created in this way.

So we always remember our connection and origin in the Universe.

So we never forget it.

This knowledge that fear took away from us.

But now this knowledge comes to us again to remember us, to recall our origins, our place where we were born, to understand how we were born, to understand that we desired it ourselves.

Over time, you will understand the broader context that will become part of your knowledge. You keep on receiving the knowledge I am giving you and you will learn to process it more quickly so it can become part of your essence. Part of your consciousness on the material level of your being. Your souls have this knowledge, but they are stored in the subconscious level. You need to transfer them from the subconscious level of your being, consciously grasping them here and now in the matter, so you can return to the original harmony of being I created.

Everything is related to everything !!!

And it takes time for everything so you are able to grasp the knowledge, that comes to you, consciously, and to transfer it into your life so that it becomes a natural part of all your days.

To become a natural part of every decision you make.

To become a natural part of every thought.

To become a natural part of your every action.

You can go and walk your lives with this knowledge.

It is important that you be very kind, patient, and that you show patience, kindness, and especially compassion to other human beings who are part of your lives and that you meet on your journey.

They are all under control of fear in some way.

They are all fear-controlled and manipulated, some more and some less.

Therefore, it is extremely important that you look at every human being through heart, compassion, and unconditional love

Then you will remain filled with compassion and unconditional Love.

Fear will not be given the opportunity to enter your heart and it will be unable to control you.

It is very, very simple if you stay connected to Love.

It is extremely difficult if you break your connection with love.

Then you begin to look at human beings with the eyes of fear, and you cannot show compassion for them or for yourself.

Therefore, there is very, very much pain in the world, because there is very much fear in the world.

PAIN is part of fear.

As FORGIVENESS is a tool of unconditional LOVE, PAIN is a tool of FEAR.
