

## **RESPONSIBILITY – part 3.**

**And this is a closed circle in which FREEDOM helps you dissolve the ENSLAVEMENT, but if you do not understand it and take responsibility for your thoughts, words, decisions and deeds, then FREEDOM will return to you ENSLAVEMENT.**

**It is so because if RESPONSIBILITY is not part of your decision, then you do not decide FREELY.**

And it is important that you take a good look at each other, at yourself, how it is, because the image of your society, is just an image of how you are from inside.

Here the Universal Law applies: both up and down, as in large so in small and both inside and out.

**Therefore, realize that you can only change society when each one of you makes that change from within.**

**You can't change it in society unless you change it inside of you.**

**Do not expect changes in your society unless you make changes in yourself.**

**Only when you change things inside you and in yourself, it will be reflected in your human society.**

And I am telling you this so that you do not begin to condemn and criticize your politicians, government officials and states because they are a reflection of you, your inner self.

If you want to make a difference in your society, each one of you needs to start with him or herself.

Only this is the way you can make a change in your society.

And that's why, even if you regularly change governments and change people sitting in government, there will be no changes in your society, and even the change to the better life that you expect won't happen. It's because you maintain silent and take responsibility for others and you don't accept and can't even express your own responsibility.

**And this is a closed circle where you have been, for a very long time.**

You need to learn to begin to perceive that what you see inside of you, is your RESPONSIBILITY and you need to stand up for yourself because it is your RESPONSIBILITY.

And it is important that you stop expecting that someone else will say what you feel inside of you. By doing so, you are causing great pain to yourself because your expectations are not fulfilled, and in this way, you put yourself in a helpless position and then blame other human beings for it.

And just as it works in small, when it affects individuals, it also works in large, in your human society.

And that's why there is so much injustice, deceit, selfishness, greed, envy, fraud and corruption because your entire society lacks RESPONSIBILITY for how it acts.

And each one of you expects that the other is RESPONSIBLE for the actions of society as a whole, and I am not.

But it is a mistake because all of you are part of this society and because everything is related to everything, how your society works is the RESPONSIBILITY of you all inseparably, integrally and indivisibly.

**And I will repeat it to you again - it is the RESPONSIBILITY of each one of you, indivisibly, integrally and inseparably.**

And just so that you could understand this now, it was so important that they write the message as Knowledge in the stone they brought on Mother Earth, because they knew that many times mankind will stand before this crossroads in order to take RESPONSIBILITY for its thoughts, words, decisions and actions.

And as it happens here on Mother Earth, it happens on other planets, other galaxies throughout the Universe where conscious life develops. In the duality.

Here on Mother Earth there are always two opposing energies because you have consciously chosen duality to get to know yourself.

**That is why it is important that RESPONSIBILITY is part of your decisions in a broader context because if it is not and you do not see, perceive or accept the consequences of your decisions and actions, you do not decide FREELY because you are NOT AWARE.**

**And although you don't see it or accept it, you are manipulated and how you decide , it depends on the extent to which you have accepted to be manipulated.**

**And this Knowledge is not part of you.**

**Therefore, you are deeply convinced in yourself that you have made a free decision and that you have the right to do so because you have free will.**

**So you do not have to take into account the consequences of your “free” decision, nor what the consequences and impacts of your decisions will have on other human beings, on other life forms and even on Mother Earth.**

**Therefore, with your decisions and deeds, you are currently cruelly and recklessly destroying the life of other forms on Mother Earth and harming Mother Earth herself, and at the same time do not accept this RESPONSIBILITY as a whole.**

**And know that you have only a very short time to understand this KNOWLEDGES and take the RESPONSIBILITY for your decisions and actions and to change your attitude to life as such on Mother Earth, because if you cross that breaking point where it will not be possible to stop and turn back time, then you will destroy yourself as another of the many civilizations that lived before you on Mother Earth did.**

And again, I will return to what is most important for you as human beings, so that you understand it, I will use your own saying: You need to „ **Keep an eye on it,, .**

And you know that once you lose your eyes, there is no way to return your eyesight and you will never see anything again, and everything around you is in the dark.

You can no longer perceive light, colours, shadows, nothing at all because everywhere is only dark.

**And the same goes for WATER and TREES on Mother Earth.**

**And I have told you many times that life was created from WATER.**

**And I also told you many times that everything is connected and intertwined and therefore it is no coincidence that TREES are growing on Mother Earth, because YOU, human beings are born out of Love and have been given free will and are very closely connected with others beings born out of Love on Mother Earth, who were not given free will.**

**And those creatures are TREES.**

**And you are interdependent and interconnected with them.**
