

Dear readers,

My name is Darina Balková and I am bringing you messages that came as a response to my feelings, which I did not understand. I could not name them in myself, so I did not understand what I actually felt.

The first Message came in 2013. Since then there have been more and more Messages and Knowledge that have helped me begin to understand myself and my way of recovering from cancer. The Messages began to reveal the veil that hides the true Truth of Life on Mother Earth.

Messages came during regression therapies through which I treated my pain, misunderstandings, failures, unworthiness, humiliation, wrongs, betrayal, unforgiveness, or feelings of guilt but also anger, hatred, powerlessness, helplessness, hopelessness, bitterness, sadness, fear, despair, and they came as a Message from the higher spiritual beings of Love and Light that explained to me the Cosmic Laws, the laws of our inner - spiritual world and of the diversity of life on Mother Earth. These messages helped me understand, comprehend, accept the responsibility, accept myself, and taught me to forgive myself and everyone else.

At the same time, through the situations that have come to my life, I have been able to experience this Knowledge on myself so I could observe and perceive the verity of this Knowledge. At the same time, I could gradually apply it in my daily life and thus, through them, gradually change myself.

Each person has the abilities through which he can objectively verify the truth of this Knowledge by allowing himself/herself to apply them to the individual situations that he/she experiences in life. Thus, through this subjective experience and skills, this Knowledge can become a part of their every day's life.

Messages and Knowledge should be seen within its context and not separately. This will then give us a profound explanation of the essence of our Being on Mother Earth, and so we can rest in Love in our hearts, which will bring us understanding, knowledge, compassion, and especially the ability to forgive ourselves, but also to everyone else. With this forgiveness, the serenity and inner peace will sprout in our hearts.

And thus we stop fighting not only with ourselves but with the world around us and become a conscious and foremostly, free human being because man is truly FREE only when he/she is conscious and when Eternal Truth becomes part of him/her.

There are infinitely many ways in which one can experience these "ETERNAL TRUTHS" and none of them is superior to the others.

Here I give you only one of these many ways that I, myself, go through.
