

HIGHER PRINCIPLES OF COSMIC LAWS – Part. 1

A swing appeared in front of me - „like a little boat,,.

As children, we swayed on it and each of us stood on one side.

Now, I'm standing in the middle of that boat and I feel like I should be standing there.

Question: What does this swing - as a boat, mean?

Answer: Question: What does this swing - as a boat, mean?

Answer: It means equilibrium, centre, the harmony of being, peace, calmness, balance. This is where I should stand. Because the swing is in the air. It does not stand on solid ground. And despite the fact that it is extremely wobbly and that it does not stand on solid ground, by standing right in the middle of it, I can find the state of equilibrium, that is, Balance, Peace, Calmness, Zero State and Harmony.

And even though I don't stand on the ground, I can stand firmly on my feet.

It is the knowledge of the Cosmic Laws and their application, that is, living them in your lives, that bring you as the higher principle this gift of - Inner Peace, Balance, Harmony, Calmness and Serenity within yourself, inside of you.

And even though you are standing in the air, you can feel this Inner Peace, Serenity, Harmony and Balance inside of you.

And according to the Cosmic Law - Both up and down, as in large so in small and both inside and outside, exactly what is inside you, you are broadcasting outside.

And if you have Peace, Serenity, Harmony, Balance within you, then as well as in your lives, in your surroundings, that is, in families, communities, states, then all over Mother Earth there is Peace, Balance, Serenity and Peace.

And that is what LOVE brings you.

And you can find this equilibrium on this swing in your lives just when you can create this Balance, Harmony, Inner Peace and Serenity within you and you can do it when you are ANCHORED IN LOVE.

YOU CAME TO MOTHER EARTH AS BEINGS BORN FROM LOVE.

You came here in infinite, deep and unconditional Love for yourself, for Mother Earth, for each other and by that, I mean all beings living on Mother Earth.

YOU human beings, your hearts were filled with Love and Love has anchored you and helped you in your lives to create that Inner Peace, Serenity, Harmony and Balance that you found in yourself and on Mother Earth in the cooperation of all beings and thus you perceived the UNITY OF BEING on Mother Earth and you perceived that you are part of one whole and that everything is connected, linked and interconnected with everything.

And then came the fear. The energy of fear created and left you insecurity, pain, various forms of injury, feelings of unworthiness, failure and absolute failure and thus you create in your lives the energies of anger, hatred, envy and fear for your lives and you closed your hearts to Love.

And at this moment, when fear closed your hearts to Love, you stopped perceiving UNITY.

At that moment, you began to perceive only yourself.

You have ceased to perceive the interconnectedness of everything with everything and you have ceased to perceive the interconnectedness of one another as human beings and you have created separation.

You perceived only yourself, your needs, which you put above the needs of other beings living on Mother Earth and so you allowed fear to take you out of your equilibrium and throw you to one side or the other of that swing. However, you have not found the Balance, the Inner Peace, the Serenity and the Harmony at either end of this swing.

And so, as individuals, but also as the whole of human society, you move from one end of the swing to the other and you cannot ANCHOR LOVE in your lives.

LOVE is ANCHOR in your lives and when you are not anchored, you are not in Love but you are in fear. That anchor, or Love, keeps you at the bottom of the swing, that is, on EARTH.

Mother Earth is LOVE, at the same time she is strong, living HERE and NOW, loving HERE and NOW, so it is LIFE itself.

And just as the anchor can keep the ship afloat, where the anchor will drop, even though the water is changing and still rippling, Love can hold you firmly on Earth in your life HERE and NOW, even when you are standing on a swing in the air.

And this is because what resides inside of you, you radiate outside.

And if it is fear and separation, then you experience it in your lives. And this fear and separation is then part of your whole society.

And fear does not like to let go of its grip once you have been caught and that's why it has come up with lots of ways in which it can always pull you back into its power.

And this is because fear feeds on the energy of pain that you create in your hearts., Fear taught you to fight so that you will keep on creating this pain in a circle.

And you fight precisely because you see your own separation from the whole and at the same time you do not see that you are mainly fighting with yourself.

And you are fighting precisely because you have lost the Knowledge that everything is connected to everything, everything is interconnected and very closely linked together.

And that is why when you are fighting with yourself, you are fighting inside yourself.

That is why this fight, which takes place inside you, is broadcasted outside and then it manifests throughout your human society. Peace, Serenity, Harmony and Balance can only be returned to your society when you stop fighting with yourself when you stop fighting inside you.

Question: How do we change that?

Answer: You need to stop fighting. And in order to stop fighting inside you, you need to dissolve and process the pain stored in your hearts, all the unforgiveness, the feelings of the guilt that you have created and the initial feeling of absolute failure and unworthiness that has become part of you and that you pass on, through your DNA, from generation to generation.

And here the Law of Conservation of Energy applies. What you resist, what you refuse to accept as part of yourself, still persists in your lives. And if you cannot accept these energies as part of you, then you cannot change them or do anything with them on a conscious level. They still remain hidden in the subconscious levels of your being and from there they influence your thoughts, your words, your decisions and your actions in an energetically significant way.

And so, even though you think you are making your own choices, you are making your decisions only in the way that the fear, that have entered your hearts, allowed you to.

And this is because fear controls and manipulates you based on the energies you have created in your pain. And it is a very, very strong influence and manipulation of your free will, precisely because for you as human beings, this manipulation is subconscious.

Based on this principle of subconscious fear, the entire insurance business was founded and created. You insure situations that you are afraid of, but which have not really happened yet and you insure them with your fear. You insure yourself in case these situations occur in your life.

And so energetically with your thoughts but also with your decision to conclude such contracts, with your real action to sign them and then pay for them, thus you energetically materialize these situations into your lives.

And fear has achieved this by storing pain, unforgiveness, guilt, failure, or unworthiness on your subconscious levels when situations have arisen in the past that created this pain for you.

Because you could not accept, release and forgive yourself and others with Love, in that life, these energies of unforgiveness and feelings of guilt remained on your subconscious levels.

And it is precisely this energy from your subconscious levels that influences your decision-making and that is why your decisions are not free. Your decision to sign an insurance contract was influenced by the energy of pain which remained unprocessed, unaccepted and unforgiven on your subconscious levels.

And so through this process which is again closed in a circle and realize this deeply, fear keeps on strengthening its effect on Mother Earth more and more.

Notice now that fear has strengthened its position in this way so strongly that many communities and states enacted insurance law in your human society.
