

# LAW OF KNOWLEDGE – Part.1

You have told me **that emotion is a necessary condition for the soul to incarnate on Mother Earth. If the soul has no emotion, then the Creator will give the soul an emotion and then it can incarnate on Mother Earth.**

I have asked, what is it related to and you told me it has to do with the Law of Knowledge. So please, I ask you for an explanation of **the Law of Knowledge.**

An elevator made out of water came. The walls are watery, glittering and rippling. The thin layers of water that stand between them are rippling and glittering like the sun. It is playful and it creates beautiful images. The sun's rays are not straight but they are wavy. It happens in the walls of the elevator and it doesn't come out. The door on this elevator works like a classic door and it opens to the sides. There is water on the floor as well. It is a thin membrane of water that does not move. I can stand on it but it's not a solid floor.

**It is the FAITH that will allow me to stand on that floor of water - solid, strong, infinite FAITH. It is HER – the FAITH that will allow me to stand on that water.**

**If we realize the greatness of our own Faith, if we can strengthen that Faith so that it can grow in our hearts, then we are really able to do anything. All, absolutely everyone, what we create in our hearts with this FAITH, we can materialize.**

We will create it in our human physical world. Because I understood what Faith means in my life, I can stand on the floor of an elevator. Nowadays, my Faith is already so strong that I really believe and trust that when I stand on the floor of the elevator, even though the whole elevator is made out of the water, I can stand safely on it and it takes me where it is needed.

The elevator didn't come by chance, it's like a metaphor. When I entered it, not only the floor is important to me but also the whole environment of the elevator. Because that elevator is made out of water. We as human beings in this time and space that we live in our physical bodies, we cannot breathe underwater. Our deep convictions and the resulting prejudices do not allow us to enter the water with a sense of security that we can live and breathe freely in it. But if FAITH and TRUST are inseparable, indivisible and integral part of ourselves as human beings, then with this Faith and Trust I can enter the elevator. Despite the fact that the whole elevator is made out of the water, I was able to breathe freely in that elevator. I could freely breathe in. The fact that I was able to breathe freely was due to the Faith and Confidence in the Creator that he will send me an elevator that is absolutely safe for me but also due to the Faith and Confidence in myself that I can enter this elevator and that I can handle everything that is waiting for me there.

*A wonderful energy came that carried an infinite amount of Love.*

**This is a metaphor from the perspective of LIFE OF THE SOUL because Faith and Trust are part of every soul. You, as human beings who live your Life in Faith and Trust, you are gradually building it. Once you gain Faith and Trust and it will fill your whole being and it will become part of your being and physical body - indivisibly, inseparately and integrally.**

# FAITH AND TRUST IS A PART OF YOUR SOUL FROM THE BEGINNING OF ITS BIRTH.

Soul, along with this Faith and Trust in the Creator and in itself, walks the paths it chooses, and which it wants to experience in its being not only on Mother Earth but in the whole of Creation. Your soul enters the process without any doubt. Soul enters it with unwavering Faith and Trust in itself, its skills, its abilities and with Faith and Trust in the Creator. And all this works together indivisibly, inseparably and integrally at one instant and at one point. Every soul who chooses this experience embarks on this journey with unwavering Faith and Trust that it can handle it.

As you had Faith and Trust in your heart, that you are in absolute safety when you entered the water lift and that floor does not break underneath you, that it does not split up beneath you and that it will keep you, so similarly every soul which will embark on this journey with Faith and Trust, it has infinite, boundless and absolute conviction in itself that it will master this experience which it has chosen. Since, at the same time, the Law of Free Will applies in the Universe, no one, neither I, nor the soul, forces itself to master this experience in a single human life.

The Emotion, the feeling that the soul chooses to explore, experience and feel very deeply as a human being, can be examined and explored in course of many human lives as it wants to. Also, the soul decides about the depth of that feeling which the soul wants to explore, experience and get to know. It is its free choice.

The soul chooses the Emotion it wants to know and it decides for itself the depth to which it wants to know this emotion in the process of knowledge.

**Question: Don't YOU determine it? Aren't YOU giving that Emotion?**

**Answer:** Correct, however, what kind of Emotion the soul wants to get to know is chosen by the soul itself.

**Question: What do YOU give?**

**Answer:** That EMOTION. After returning Home, each soul passes on its experiences of emotions and feelings that it has come across in its life as a human being. Thus she/he gets to know HER/HIMSELF. Since every human being is a part of me thus I get to know MYSELF too.

**Question: What are the Emotions that the soul can choose?**

**Answer:** You can experience all emotions as human beings. The soul can choose from all the Emotions. The emotion that the soul has chosen to experience will occur the most in its life.

**Question: How do we tune in to those energies. Can you give me an example?**

**Answer:** Everything is related to everything. Everything needs to be looked at from a broader perspective. The Law applies: both up and down, as in large so in small, both inside and out. No soul exist just on itself, you cooperate with each other. It is a symbiosis and a separation

because you need to feel, perceive as individuals but you live in a community and you also perceive other human beings and other beings because you live on Mother Earth where other nature beings of nature live, where the Laws of Mother Earth and also The Cosmic Laws apply and where all this works together. And in that interaction, one particular soul experiences a particular Emotion. Soul experiences and recognizes the Emotion that it has chosen but it also wants to experience it in the context of what it is.

*Wonderful energy came which brought the curious energy of Love in which I drifted away.*

**EVERY SOUL IS LOVE.**

**BECUASE IT WAS BORN OUT  
OF LOVE, FOR LOVE AND IN LOVE.**

It does not matter what Emotion the soul chooses, in the end, it needs to get to know itself anyway. And so, through many Lives and incarnations, the soul needs to get to its essence that is LOVE. Through these incarnations, by knowing, understanding and experiencing the depth of the various Emotions that it has chosen and that it wanted to know, the soul gets to itself. It is through knowing this Emotion that it has chosen, the soul gets to the Love that it is.

**THIS IS THE PROCESS OF KNOWLEDGE.**  
**KNOWING YOURSELF AS LOVE.**

In order for the soul to understand and to know that it is Love, it needs to see, perceive and feel the opposite as well. Because if there would be only Light, no one will see, perceive and feel it. You will not be able to experience being a Light unless the opposite of the LIGHT begins to exist and that is DARKNESS. Only if you know what DARKNESS is, can you see, perceive and feel, that you are LIGHT. It does not matter what kind of Emotion the soul chooses, it is precisely by knowing it deeply, seeing it, perceiving it, feeling it and by getting to know itself through these Knowledge, that the soul begins to understand its essence which is Love. If there is no opposite, then the soul cannot see, perceive and feel or experience what it really is, that is, Love.

That is why FORGIVENESS is such an extremely important tool of Love.
